LUMIVIVE® SYSTEM

POWERFUL ANTIOXIDANTS TO PREVENT
VISIBLE SIGNS OF SKIN AGING AND DEFEND 24/7

WHY YOUR SKIN NEEDS 24/7 DEFENSE

Throughout the day and even overnight, your skin is affected by many factors. Environmental and internal aggressors cause free radicals and oxidative damage to our cells, contributing to visible signs of aging. The result—redness, wrinkles, lines, uneven tone, and rough texture.¹

EXTRINSIC AGING^{1,2}

- + Solar UV radiation
- + Pollution and ozone
- + Blue light

INTRINSIC AGING¹

- + Cellular detoxification
- + Hormonal changes
- + Circadian rhythm disruption

To compound the problem, your skin's natural ability to repair itself overnight diminishes as we age. It needs targeted antioxidants around the clock to provide day-to-night protection for improved skin recovery.³

THE POWER OF TWO

DAY-TO-NIGHT LUMIVIVE® SYSTEM

LUMIVIVE® is an antioxidant system based on your circadian rhythm. This is 24-hour, comprehensive protection and improved recovery from extrinsic and intrinsic aging. You may see radiant results in as few as 14 days.⁴

For day

Powerfully shields skin from environmental aggressors

For night

Prevents visible signs of skin aging and provides internal protection for recovery during your crucial sleep cycle

DID YOU KNOW?

- The circadian rhythm is responsible for our sleep-and-wake cycle and affects skin barrier function and the immune system⁵
- Your skin needs nighttime antioxidants to target internal toxins³

SHIELD YOUR SKIN BY DAY

LUMIVIVE® DAY Damage Defense Serum is rich in antioxidants that strengthen the skin's protective barrier against damage from sun, pollutants, ozone, blue light, and other daily aggressors. Aging and overexposure to these daily environmental threats decrease the skin's nighttime repair process.
